SUMMARY OF QUALIFICATIONS

Thirty-nine years of specialty construction experience in foundation drilling encompassing the following:

Grouting

- Cement Grouting
- Chemical Grouting
- Fracturing Grouting
- Jet Grouting

Structural Support

- Micropiles
- Jacked Piers
- Driven Piles

Earth Retention

- Ground Anchors
- Shoring
- Soil Nailing
- Micropile Soil Stabilization System

Ground Improvement

- Vibro Stone Columns
- Vibro Compaction
- Vibro Concrete Columns
- Dynamic Compaction
- Soil Mixing
- Injection Systems for Expansive Soils

EXPERIENCE

2008 – 2011

Layne GeoConstruction

22537 Coleman's Mill Road, Ruther Glen, VA 22546, (804) 448-8060

Equipment Operations Manager: Managed fleet of equipment used in specialty foundation construction encompassing 39 drill rigs, 50+ trucks, 8 air compressors, 10 concrete pumps, 20 grout pumps, 15 jet grout pumps, 30 grout mixers, 15 cement silos, and 8 skid steer loaders. Oversaw diagnostic work on all types of heavy equipment related to equipment modifications, repair and maintenance. Coordinated scheduling of equipment for specialty construction projects. Negotiated equipment rentals, leases and purchases, including parts and supplies. Set-up equipment tracking, maintenance and cost accounting system utilizing JD Edwards Enterprise 1.

2006 – 2007

Berkel & Company

8243 Baltimore Annapolis Boulevard, Pasadena, MD 21122, (410) 439-9101

General Superintendent, Micropile Division – Oversaw micropile projects throughout the country.

1989 – 2006

Hayward Baker, Inc.

1875 Mayfield Road, Odenton, MD 21113-1199, (410) 551-1980

Northeast Shop Manager/Corporate Drilling Specialist (1988 – 2006): As a Corporate Drilling Specialist, assisted regional offices, project managers and superintendents with identifying solutions to drilling problems, including onsite troubleshooting based on ground conditions. Assisted project managers in bidding and strategizing jobs. Directed equipment modifications to meet specific job requirements and geology. Established drilling methodology and tooling, and assisted in its implementation. Also managed northeast shop operations involved in equipment repair, maintenance, modifications and procurement. Coordinated sharing of resources throughout the United States, Canada and Mexico.

Field Superintendent (1983 – 1988): Served as senior supervisor of ground modification projects, involving rock anchors and compaction grouting.

1977 – 1983

Dappalonia Drilling, Pittsburgh, PA

Driller/Superintendent – Promoted to superintendent in 1982. Performed core drilling and soil sampling through the United States. Managed multiple rig jobs.

1972 – 1977

Pennsylvania Drilling Company

500 Thompson Avenue, McKees Rocks, PA 15136, (412) 771-2110

Driller – Hired as a helper and promoted to driller in 1972. Performed soil sampling and core drilling throughout the United States.
