Summary of Experience Glenn R. Deuel, President

Over 30 years of electrical experience in commercial and industrial applications. Served as an apprentice/journeyman/foreman electrician with the International Brotherhood of Electrical Workers in Perth Amboy, NJ Local Union #358 for 16 years. Worked with Hatzel & Buehler, who are renown for wiring the Biltmore House, under apprenticeship and into journeyman status for nine years. Also worked for Forrest Electric for one year and M-P Electric for six years under journeyman and foreman status. Within those sixteen years of being a union electrician, it was an honor to be employed by these reputable contractors. Because of my dedication, work ethic and experience, these electrical contractors retained my employment and treated me as family. I left M-P Electric in 1995 to relocate to North Carolina to establish Glencor Electrical Contractors, Inc. and serve the Charlotte metro area. Brief history of jobs ran: Revlon, Charles of the Ritz, Mobil Chemical, PMC Chemical, various banking institutions, Perth Amboy High School, Macy's, Nordstroms, & Woodbridge Center Mall, Woodbridge, NJ.
